2023 FALL & WINTER COLLECTION

URBAN OUTDOOR  
FOOTWEAR

## PRODUCT BOOK

SHAKA is a fusion of fashion and outdoor,  
in addition to supporting your feet  
for long walks such as travel scenes.

Make connections  
with unknown lands and people.  
Hoping that SHAKA could be  
a part of your trip.

# SHAKA

2023  
FALL & WINTER

We can get any information we want from our phone.  
There's no where we don't know in this world anymore.

So let's go.  
And step into the world where places that only exists at the time.  
We can go anywhere wearing this freedom.  
To see it with our own eyes, hear it with our own ears,  
and to feel the air and scent.

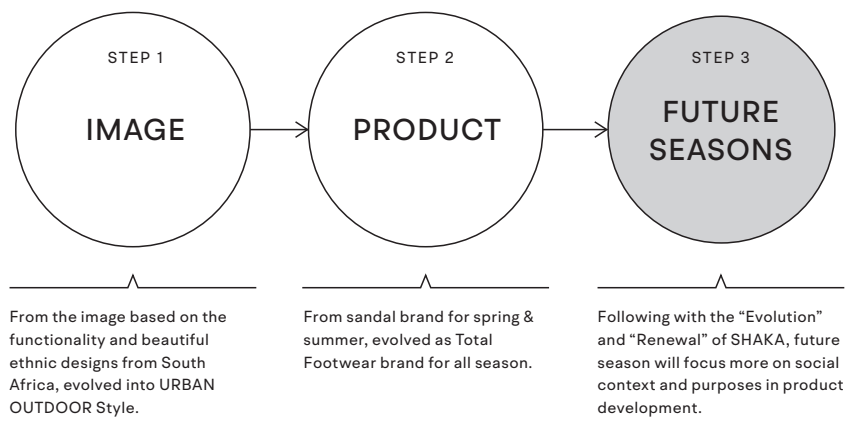

There will be lots of unexpected things ahead,  
beyond our expectation waiting for us.

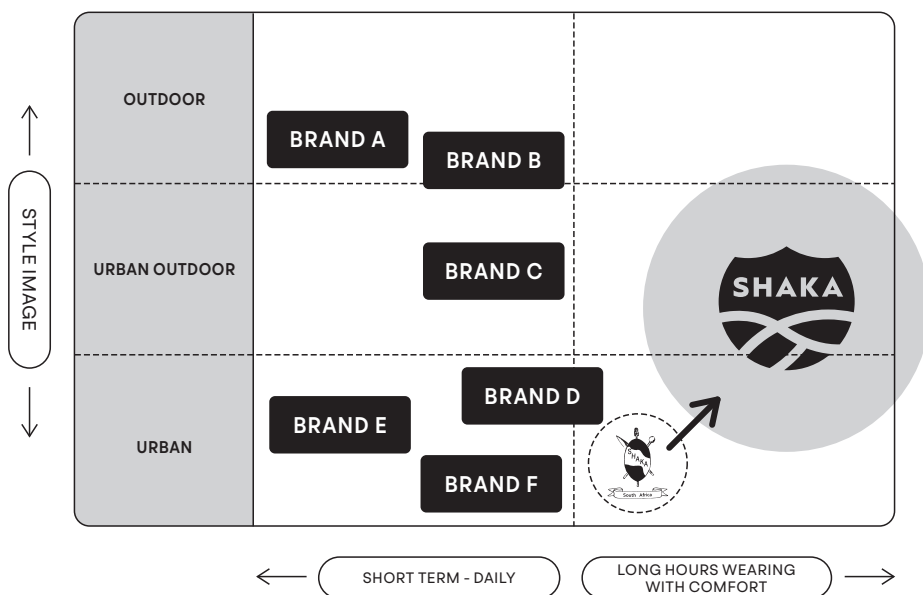

URBAN OUTDOOR  
FOOTWEAR

Let's go.  
Anywhere, anytime.

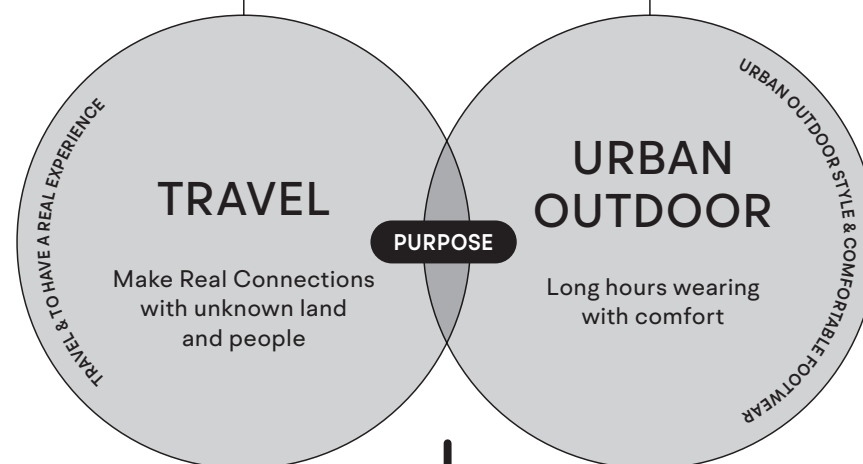

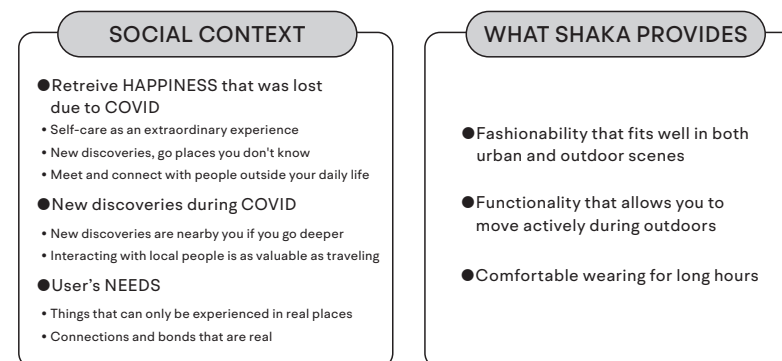

## SHAKA's EVOLUTIONS & GOALS

[ URBAN OUTDOOR ] + [ LONG HOURS WEARING WITH COMFORT ]  
= ONE AND ONLY EXISTENCE

## WHAT's SHAKA AIMING FOR?

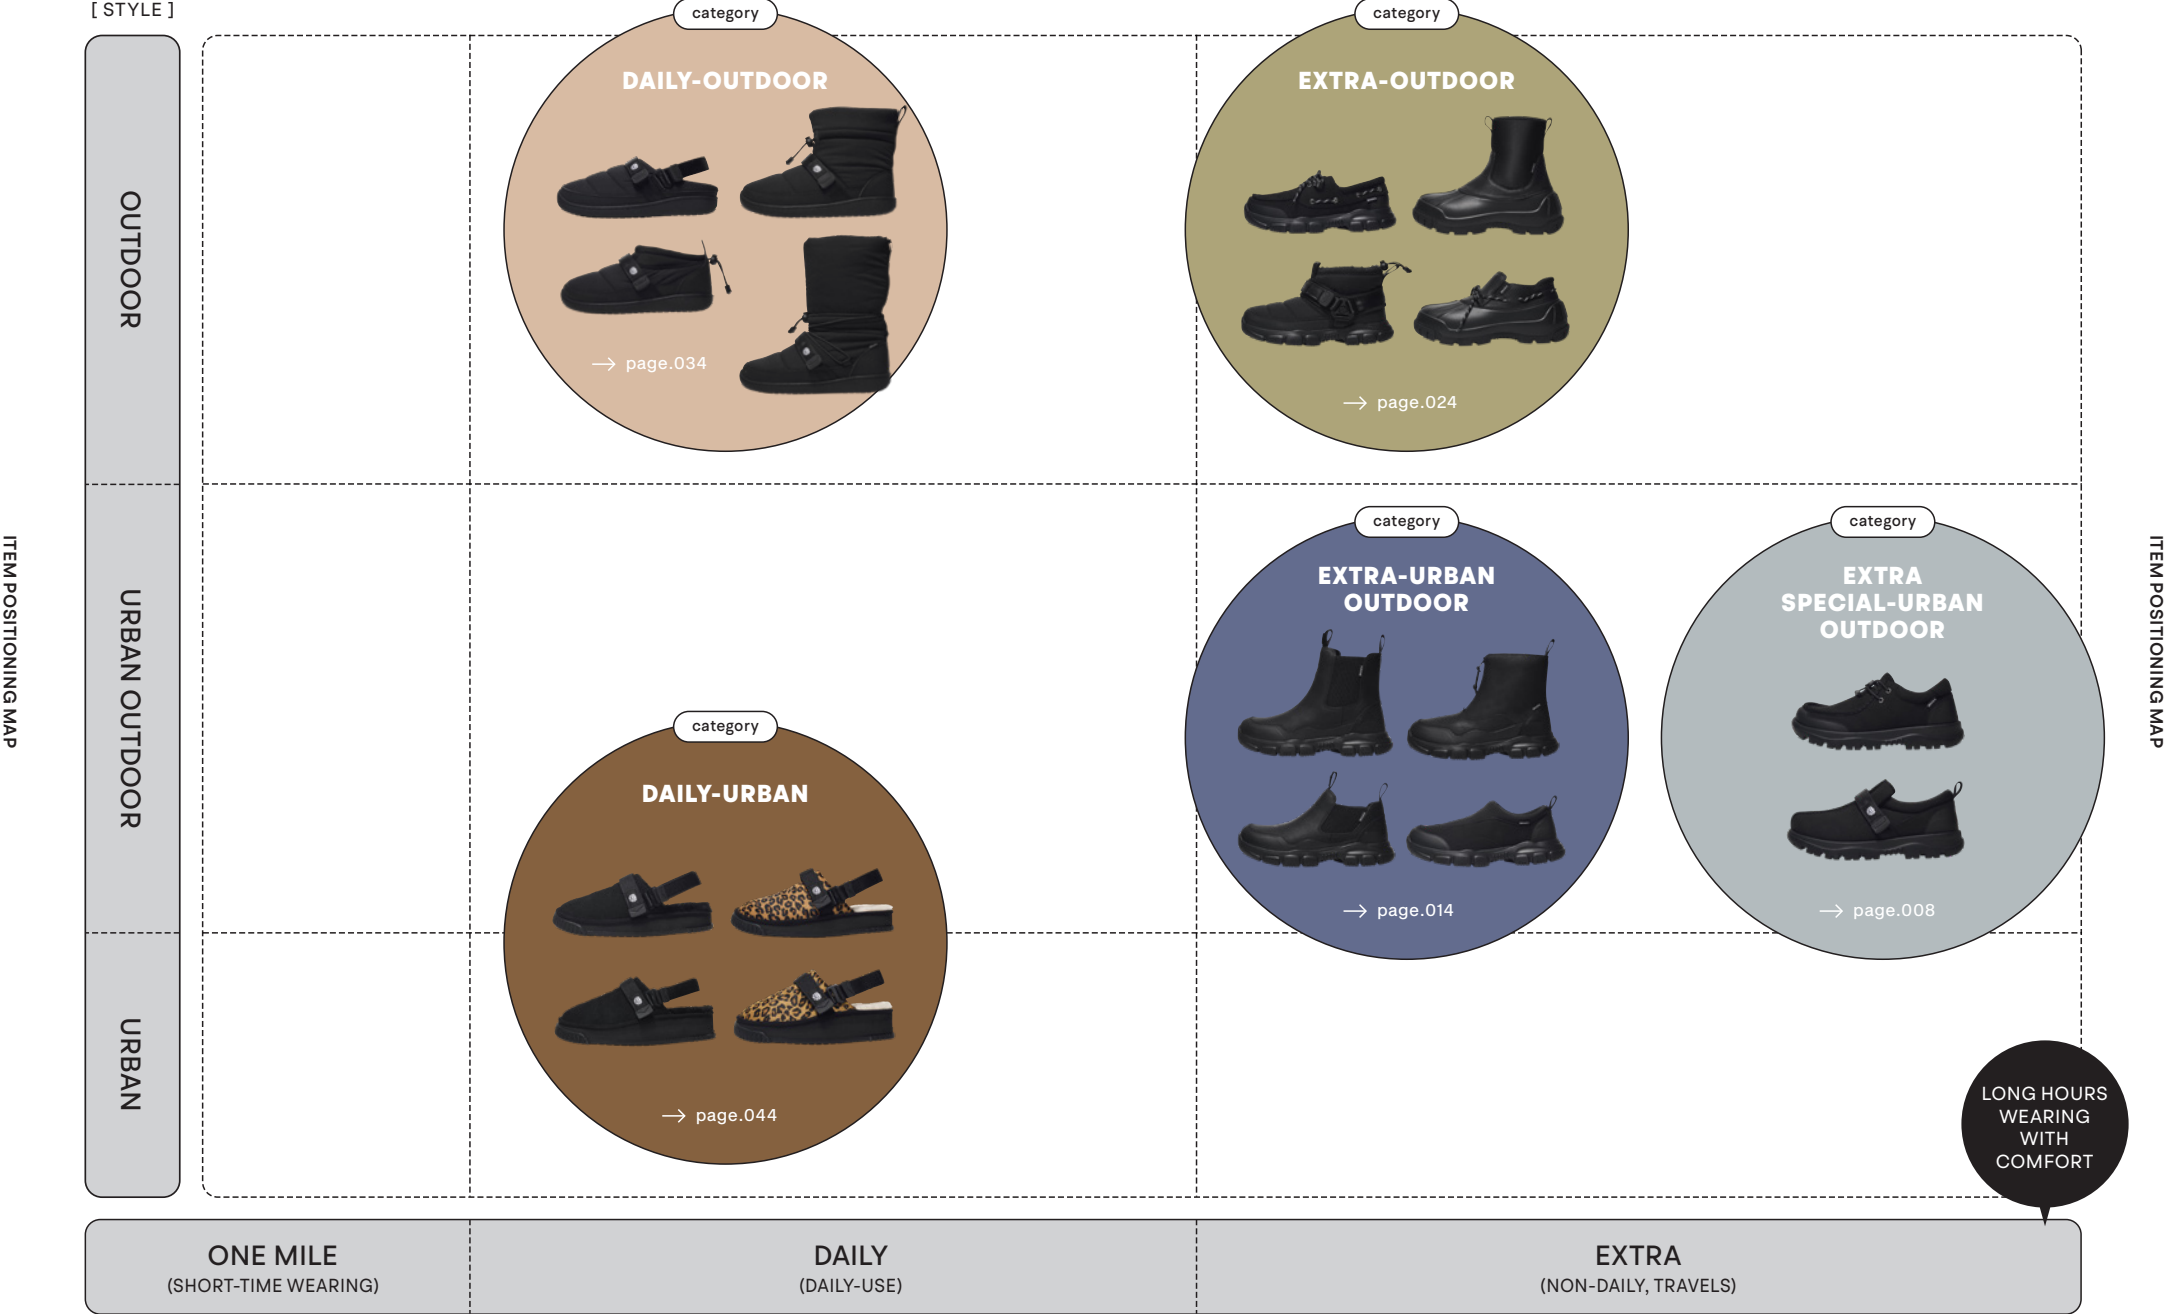

We believe that by walking around in real life,  
exploring new things and new connections  
will bring ease and fullness into life.  
So we promise you a perfect style to go anywhere you want  
and a pair to walk you everywhere.

- material UPPER: POLYESTER  
OUTSOLE: EVA+RUBBER

SNUG BOOTIE AT, known as one of SHAKA's high performance winter boots has been renewed with water repelling material MINOTECH® ST fabric which not only protects the boots from water but also comes with a luxurious look with updated colorways. The word "MINO" comes from a traditional Japanese raincoat made out of straw which inspired the structure of this fabric that slides off and repels water while maintaining stretchability and moisture permeability. The batting uses 3M THINSULATE™, a high-performance batting material that has great heat retaining performance and a drawcord on the topline to shut out the cold air.

# ABOUT OUT SOLE

ABOUT OUT SOLE

type :

## EX SOLE

EX SOLE is a new sole that pursues comfort for long hours wearing. Collaboratively developed with Italy's EXTRALIGHT, which also provides lightweight soles to the luxury fashion brands. It is about 25% lighter than the AT sole, and the uniquely developed EVA footbed improves cushioning and fitting, being the most comfortable sole in SHAKA history. It has excellent anti-slip with high grip, and can be worn it safely rainy days, perfect for urban lifestyle.

type :

## ALL-TERRAIN SOLE

AT stands for ALL TERRAIN, it uses EVA injection on the sole for lightweight and great cushioning. The evolved version of shark tooth grip which is also the icon of SHAKA, has expanded pattern in the center of the bottom surface. Enabling the grip to approach in all directions in any environment and comfortable wearing for long hours.

type :

## SCHLAF SOLE

SCHLAF SOLE aims to provide a relaxing and great comfort as were wrapped in a sleeping bag. The outsole pattern is the same as ORIGINAL SOLE with wider width, this molded cup sole uses side McKay method sewn to the upper, designed to wrap around the foot. The footbed fits nicely and has great functionality in both urban and outdoor scenes.

type :

## MUD-TERRAIN SOLE

MT means MUD-TERRAIN. This sole is designed for use on muddy rough roads. The midsole uses EVA injection which is lightweight and high cushioning, and the outsole is made of high grip performance rubber for anti-slip. The sole pattern has Shark Tooth Grip in the center, and the around tread has chases for drainage, is designed to prevent slipping even on wet or rough bumpy roads.

type :

## WIDE ORIGINAL SOLE

WIDE ORIGINAL SOLE is a slightly wider version of the ORIGINAL SOLE. This sole is updated in oblique toe shape for a relaxing wearing while keeping the original details as it is, as well as maintaining high grip power of the shark tooth grip and arch support, with stability added when wearing.
